

Watershed of Southern San Francisco Bay

An additional resource for the Satellite Image Watershed Exploration

6 Watershed of Southern San Francisco Bay maps - in 12 pieces
3 Watershed of Southern San Francisco Bay maps - in 24 pieces
1 Watershed of Southern San Francisco Bay map - uncut

These maps show a simpler view of the greater San Jose area with an emphasis on water bodies.

Content

See the information in the Satellite Image Watershed Exploration activity card.

Activity

Hand out each map set to groups of students. The 24 piece map is a larger, but identical version of the 12 piece map. The 12 piece maps are easier to put together.

Have each group put together their map and ask them questions to engage them.

Which way is north on this map?

Can you point out the San Francisco Bay?

Which way is the water flowing?

What other water bodies do you recognize?

Have you been to any of the places listed at the bottom of the map?

Find Mount Umunhum at the top of the watershed.
